# Release Notes: MX Portal V1.4

The MX portal was upgraded on 1/19/19. Below are the release notes for version V1.4.
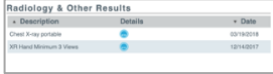

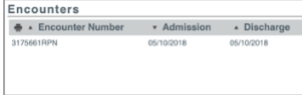

**TABLE 1: SUMMARY OF CHANGES**

| Item Number | Summary | Description |
|---|---|---|
| 1 | Feature Enhancement: Admit source | Driver's License State is displayed next to Driver's License Number |
| 1.1 | Feature Enhancement: Admit source | In Notify, the Admit Source displays the description rather than the code |
| 1.2 | Feature Enhancement: Encounter on patient summary page | The Patient Summary page includes a preview of Encounters |
| 1.3 | Feature Enhancement: Diagnosis order | Diagnoses are listed in reverse chronological order |
| 1.4 | Feature Enhancement: PCP in demographics | The primary care provider is included in patient demographics |
| 1.5 | Feature Enhancement: Insurance information | The insurance information is included in patient demographics |
| 1.6 | Feature Enhancement: Patient context from Notify to Access | When viewing a notification, users can click on Access to view that patient's medical record |
| 2 | Data Defect – Allergy: Allergy icon | The allergy icon inside a patient's medical record is not displayed when the only allergy listed is "No Known Allergies" |

The following table presents a comparison between the previous version (V1.3) and the new one (V1.4).
